EXPORT STATISTICS
Milton Kaufman

REPORT No. FT 410

Exports under the Greek-Turkish Aid program, the Lend-Lease program and the United Nations Relief and Rehabilitation program are included in the figures shown in this report. Shipments of military and naval supplies and equipment for the use of United States armed forces abroad are not reported in export statistics. Shipments to United States Government agencies, other than office furniture, equipment, and supplies for the use of such agencies, are included.

Shipments between the continental United States and the United States Territories and Possessions and shipments between the Territories and Possessions are reported separately in Report No. FT 800, and are not included in this report.

A complete discussion of the compilation procedures and coverage for export statistics will be found in the foreword to the 1944 edition of *Foreign Commerce and Navigation of the United States*. Copies of the foreword are obtainable upon request.

Commodity descriptions and country names are abbreviated in this report where space does not permit complete description. See Part II of Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, for complete commodity descriptions and partial list of items included in each, and Schedule C, Code Classification of Countries (published as a part of Schedule B), for unabbreviated country names. A separate edition of Schedule C showing the countries, adjacent provinces, territories, and islands included under each country of destination is also available.

The omission of a commodity classification from this report indicates no transactions.

Statistics of exports of merchandise not shown in this section will be found in other sections of this report according to Schedule B commodity group.

Shipping weight, previously shown in this report, was discontinued effective with the statistics for the month of July, 1947.
